Our Philosophy

At Fort Garry Child Care we are committed to providing high quality child care in a play-based and child-centered environment.

Our program provides children with an atmosphere where they can develop a positive self-image, practice independence, and learn to respect themselves, others, and the environment.

Fort Garry Child Care is committed to providing an inclusive environment for all children and families.

"Play gives children a chance to practice what they are learning"

Our Programs

CURRICULUM

We offer play-based programming that supports children in their language, physical, social, emotional, and cognitive development. We follow an emergent curriculum approach that is based off of the children's current interests.

OUR EDUCATORS

The staff working for FGCCCC work hard each day with each and every child, planning fun and exciting activities, tending to their needs, and ensuring all children are safe. We have a mix of Early Childhood Educators and Child Care Assistants working in our programs. All of our staff have their first aid and CPR certificates as well as cleared background checks.
