Dear Grade 8 students and families of the Pembina Trails School division,

Re: PTEC Information Session

We are excited to introduce Pembina Trails Early College (PTEC) to Grade 8 students, offering a unique opportunity to explore advanced education pathways. Located within Pembina Trails Collegiate (PTC), our division's newest high school, PTEC provides an innovative and accelerated approach to high school education.

The PTEC program focuses on advanced technology fields such as full-stack development and cloud computing. Through partnerships with Tech Manitoba and MITT, PTEC offers students the chance to engage with a dynamic community of innovators, technical experts, and visionary leaders who will help shape their learning experience and guide their success.

To learn more about applying to the PTEC program, please refer to the attached application form. We also invite all interested Grade 8 students and their families to join us for an information evening at PTC and an exploration evening at MITT.

We look forward to sharing with students and families what makes PTEC an exciting and exceptional program.

Warmest regards,

Jacqui Kroeker Linda Eden David Gamble Bryce Edie

Jacqui Kroeker, Linda Eden, David Gamble and Bryce Edie (PTC's admin team)
