Pembina Trails Early College

**The pathway to PTEC  
Information Sessions 2023**

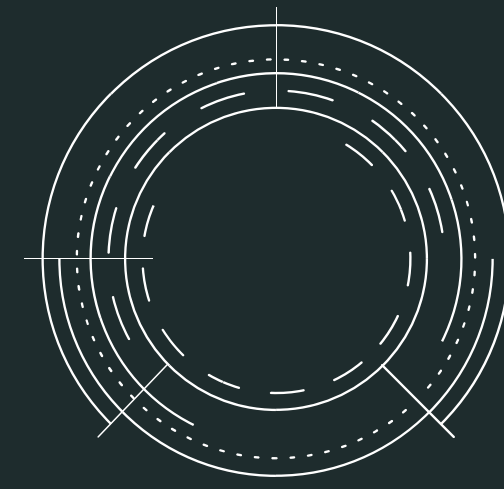

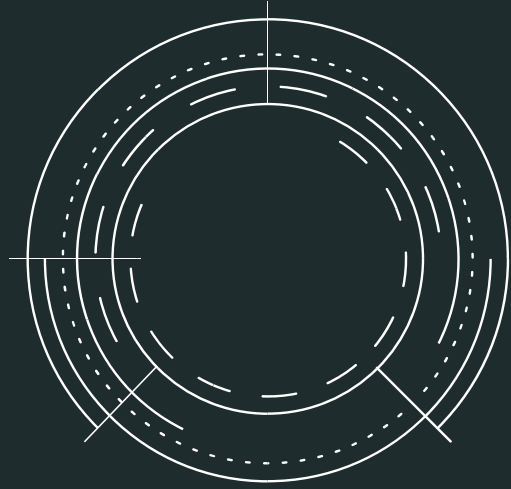

**Presented by  
Ms. J. Bachart  
Principal**

**PTEC**  
Pembina Trails  
Early College

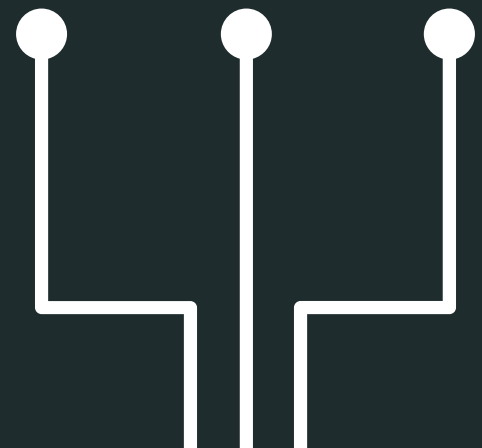

What will be covered today?

- Changes to PTEC
- **Who we are**
- **Why it works**
- **How we work**

**Pembina Trails Early College (PTEC) is a program that has been specifically designed through collaboration with industry involvement, Pembina Trails Collegiate, and the Manitoba Institute of Trades and Technology.**

**By delivering accelerated programming in the sought-after technical streams of software development, cyber defense, and networking, our program has created a comprehensive and authentic experience for students who are interested in the digital world as a career.**

# PTEC

Pembina Trails  
Early College

- High-tech program
- Combination of High School, College and Industry
- Grades 9-12
- Over 130 students enrolled
- Graduate with a high school diploma and a post-secondary diploma
- Gender parity

2018 / 2019

2020 / 2021

2022 / 2023

2019 / 2020

2021 / 2022

2023 / 2024

## HIGH SCHOOL

Students accepting a seat at PTEC must enroll at Pembina Trails Collegiate, as well.

Students accepting a seat at PTEC must find personal transportation to get to and from PTC and MITT.

Students accepting a seat at PTEC understands that PTC is an English school and there is not option for French Immersion.

## PTEC PROGRAM

Students accepting a seat at PTEC will spend their high school time at PTC, exclusively.

High tech courses are taught at PTC in grades 9 and 10, and then students will transfer to MITT for grades 11 and 12 in either one of two streams: Software Developer or Networking and Systems Admin.

## TECH MANITOBA

Students in grades 9 and 10 at PTC/PTEC are introduced to technical experts in the IT field and engage in mentorship and collaboration in grade 10.

Students in grades 11 and 12 at PTC/MITT continue to collaborate with tech leaders and grow their technical resume and presence as they prepare for industry.

Beliefs and Culture

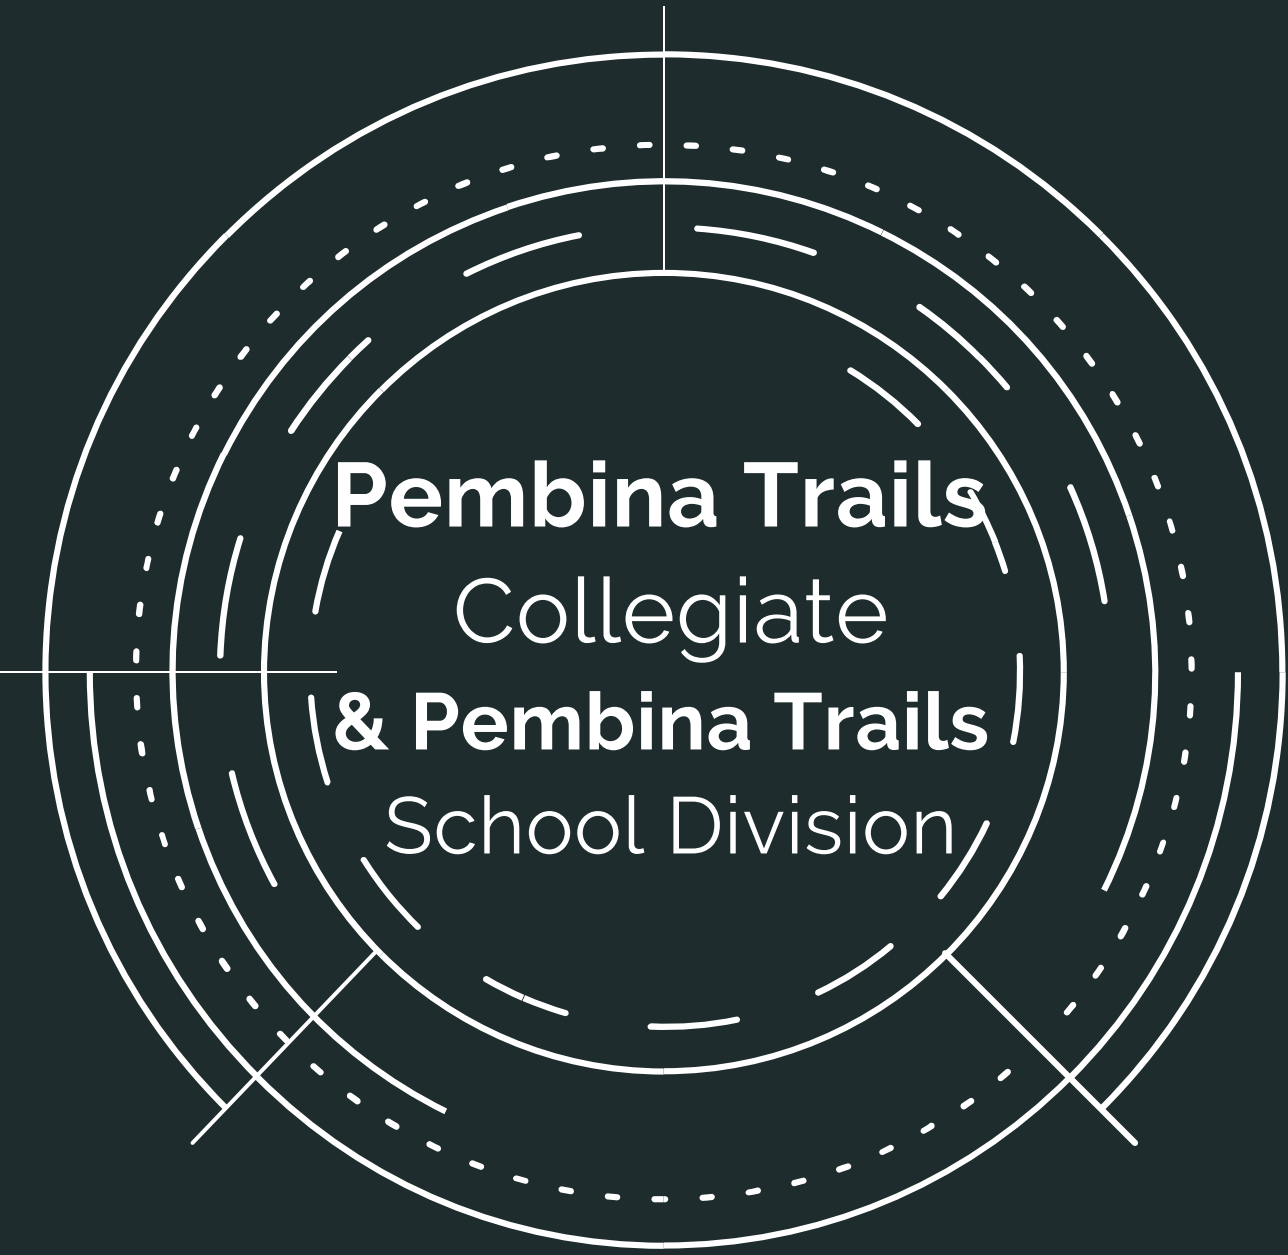

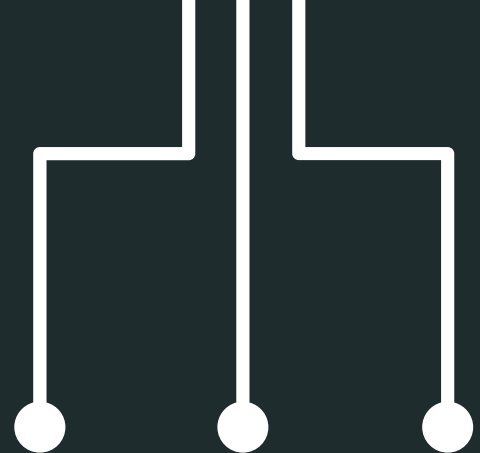

# EXPECTATIONS

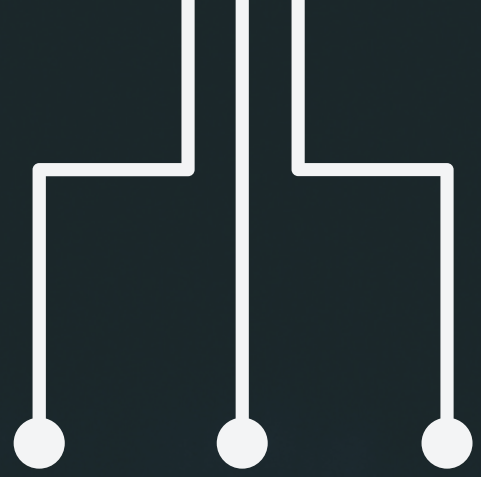

# PTEC PARTNERS and their ROLES

**Acadia Junior High School**  
**Arthur A. Leach School**  
**BISON RUN School**  
**Ecole Charleswood School**  
**Ecole South Pointe School**  
**Ecole Van Walleghem School**  
**Ecole Viscount Alexander School**  
**General Byng School**  
**Henry G. Izatt School**  
**Laidlaw School**  
**Linden Meadows School**  
**River West Park School**  
**Westdale School**

# divisional device

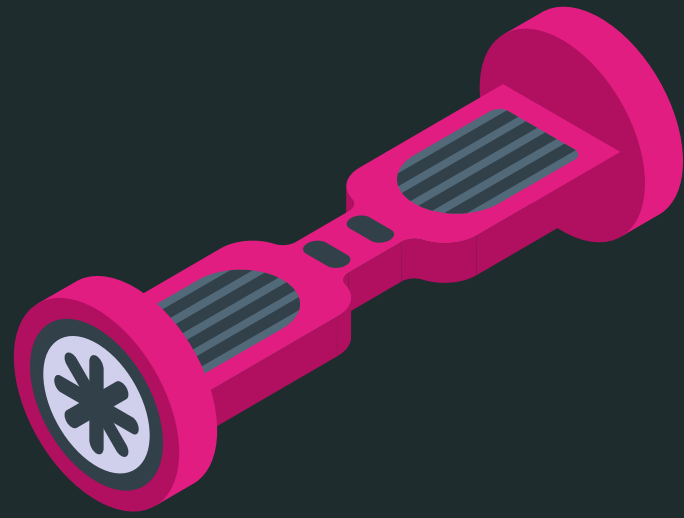

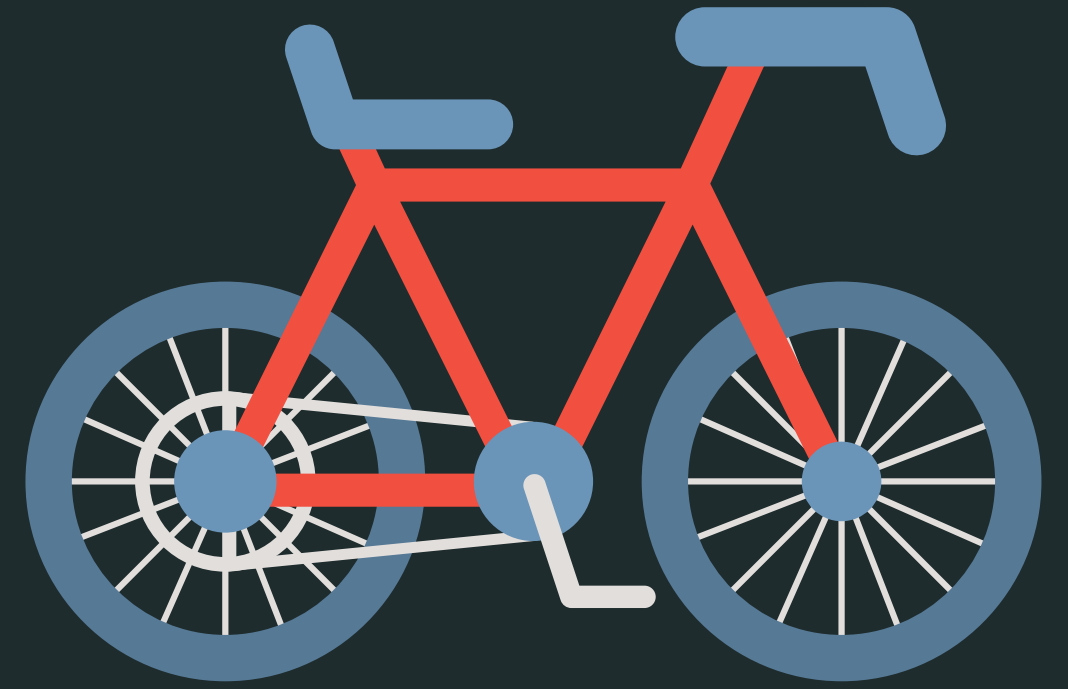

During your time at PTEC (grade 9 and 10) students will have access to divisional devices to support their learning.

In grades 11 & 12 students will have to save for a more robust machine to build their dreams!

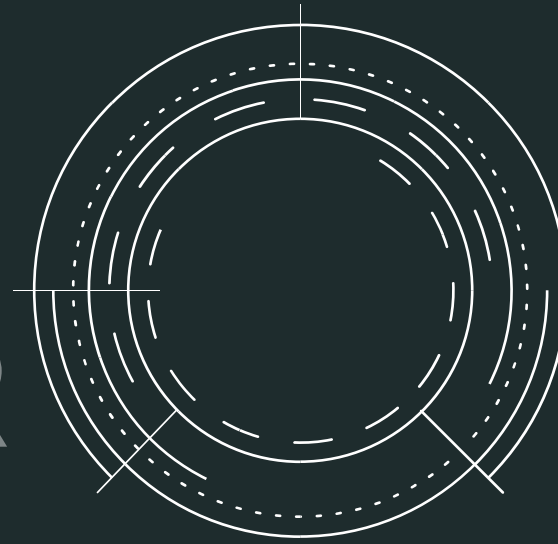

# Transportation

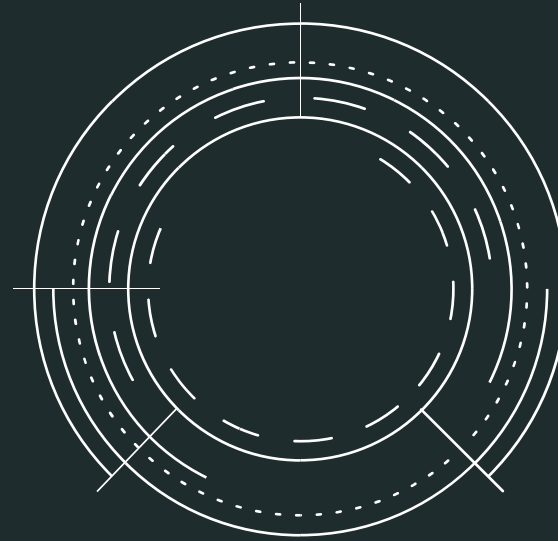

Students will need to find their own way to PTC and MITT if accepted to PTEC.

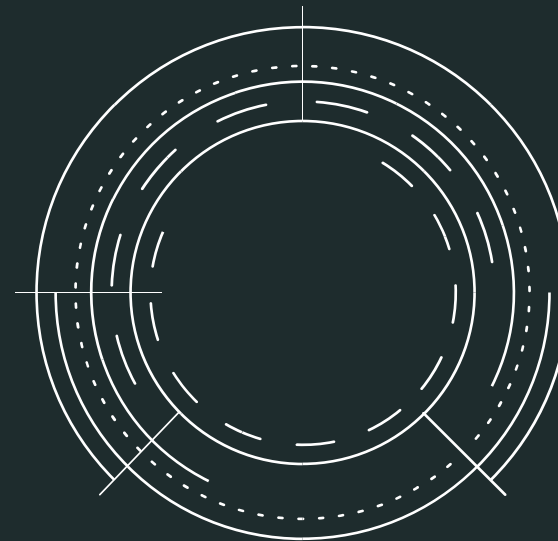

# What you learn IN SOFTWARE DEVELOPER in Grades 9 and 10

**JavaScript**

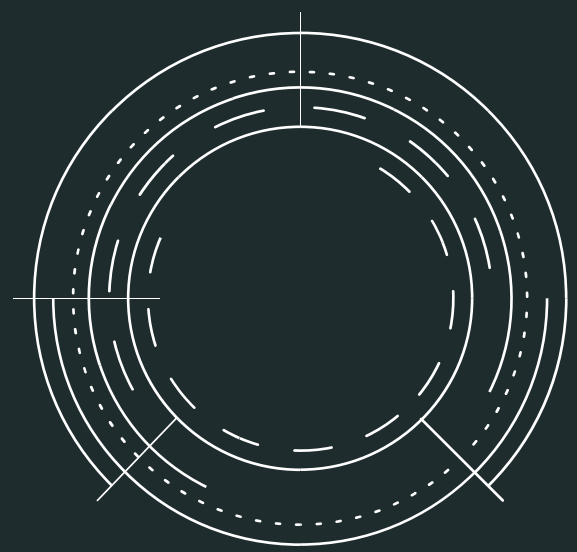

**C# & Java**

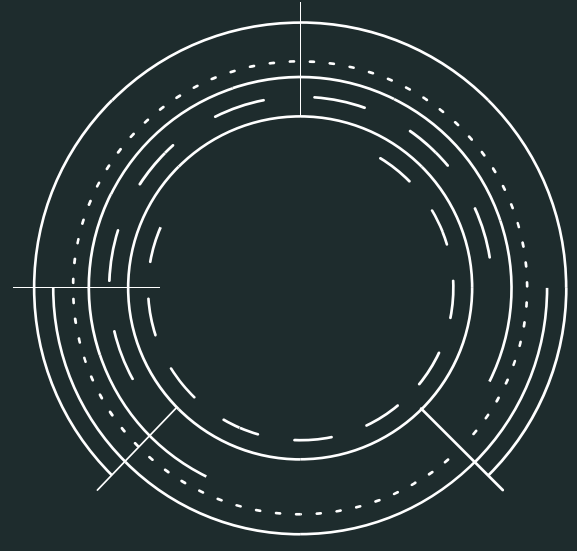

**HTML & CSS**

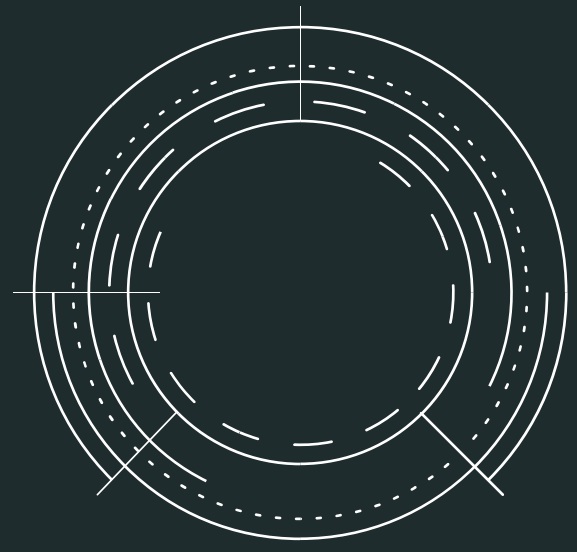

# What you learn in CYBER AND NETWORKING in grades 9 and 10

Cisco's Networking Essentials

Cyber Security

Cisco's IT Essentials

# Recent Developments by students

Python

A general programming language used commonly with machine learning

Blender

Free and open source 3D creation suite used for 3D modelling and animation

Adobe Creative Cloud Suite

Creative Cloud is a collection of 20+ desktop and mobile apps and services for photography, design, video, web, UX and more

Lua

a high-level, multi-paradigm programming language designed primarily for embedded use in applications like Roblox

# EXTRA-CURRICULAR

## eSports

- League of Legends
- Rocket League

## D&D

We have a virtual and in-person D&D club that plays every Tuesday

## Games Club

Every Wednesday we play Super SmashBros and ultimately have a final tournament

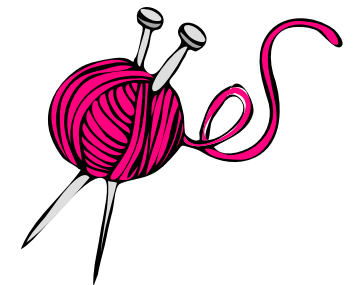

## Cyber Patriot

We have over ten teams that compete with people around the world, every Tuesday and Thursday

## PTC

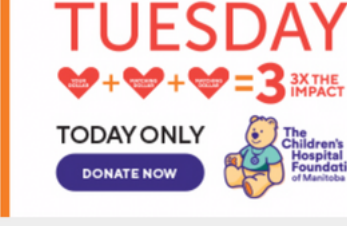

Your school will have alternative activities that you can join during lunch hour or after school - stay tuned

Dear Jane,

I am writing to thank you for your contribution to Winnipeg being named the World's Most Intelligent Community. Your participation in interviews and submissions for Winnipeg's Intelligent Communities Forum submission is deeply appreciated and played a significant role in our city earning this prestigious global recognition. But most meaningful - and appreciated - of all, is your commitment to Winnipeg. You have demonstrated early faith in our potential as an intelligent global city, and in doing so, have been key to securing this historic designation as the Most Intelligent Community in the World. It is a title belonging to all of us, but especially to you. Congratulations!

### HOW TO APPLY FOR PTEC!

December 20, 2022

We are very excited to move into our new digs at [Pembina Trails Collegiate \(PTC\)](#)! While we had great experiences at the SmartPark Innovation Hub, we are over the moon to be in a school that has state-of-the-art design and programming.

PTEC is continuously improving how we do school. While we have found much success in the past four years. We, like technology, are going through an upgrade.

PTEC will maintain its high level of accelerated technology programming in both Cyber Security and Software Development, we will do it just a bit differently starting with the application process.

Over the past years, we have had over 250 students on the waiting lists. We want to have options for all of our Pembina Trails Students in a way that suited their understanding and needs to be technology-educated students. To make sure we have the right formula and technology programming for our students, we would like students to not only apply but also send us a letter of intention.

**\*NEW\* APPLYING FOR PTEC AT PTC - 2023-24 SCHOOL YEAR**

Any current grade 8 student residing in the Pembina Trails catchment area can apply to PTEC at PTC.

When applying, students must fill out the application form fully, and include a letter of intention. Our application site will be open from **January 5th to March 3rd, 2023, at noon.**

The letter should contain the following:

- Your name
- current school
- current grade
- what you know about PTEC
- why you would be a great fit for PTEC
- something interesting about yourself
- what about technology interests you
- what would you like to learn more about in technology?

Both application form and letter of intention should be emailed together to [ptec@pembinatrails.ca](mailto:ptec@pembinatrails.ca) before March 3, 2023 at noon to be considered.

**We wish everyone the best of luck as they apply to PTEC at PTC!**

**Letter of Intent**

Anukriti Gupta  
AK-56/ Shalimar Bagh  
New Delhi-110078  
[contactanugupta@hotmail.com](mailto:contactanugupta@hotmail.com)  
Mr Harshit Khandelwal  
Dean of the University of Essex  
24-Central Avenue

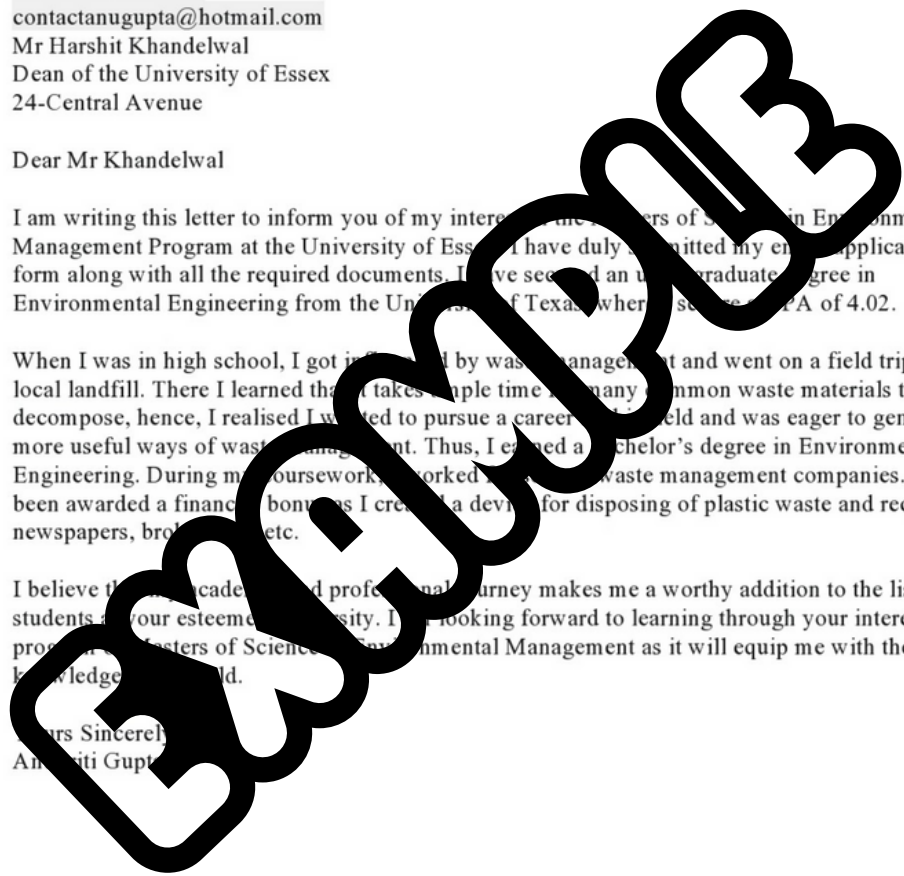

Dear Mr Khandelwal

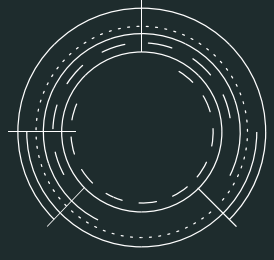

I am writing this letter to inform you of my interest in the Masters of Science in Environmental Management Program at the University of Essex. I have duly submitted my entire application form along with all the required documents. I have secured an undergraduate degree in Environmental Engineering from the University of Texas where I secured a GPA of 4.02.

When I was in high school, I got inspired by waste management and went on a field trip to the local landfill. There I learned that it takes a long time for many common waste materials to decompose, hence, I realised I wanted to pursue a career in this field and was eager to generate more useful ways of waste management. Thus, I earned a Bachelor's degree in Environmental Engineering. During my coursework, I worked for two waste management companies. I have been awarded a financial bonus as I created a device for disposing of plastic waste and recycling newspapers, brooms, etc.

I believe that my academic and professional journey makes me a worthy addition to the list of students at your esteemed university. I am looking forward to learning through your interesting program in the Masters of Science in Environmental Management as it will equip me with the right knowledge to contribute to the world.

Yours Sincerely,  
Anukriti Gupta

**2018-2019** = 32 applied - 30 were accepted

**2019-2020** = 60 applied - 30 were accepted

**2020-2021** = 93 applied - 32 were accepted

**2021-2022** = 115 applied - 32 were accepted

**2022-2023** = 144 applied - 32 will be accepted

**2023-24** = ?

Important dates: APPLICATIONS DUE by March 3, 2023

Acceptance letters: You will be notified by March 10, 2023

# IF YOU ARE CHOSEN

If your name has been chosen, you will receive an email letting you know that you are one of 32 students which have received a seat.

- if **you choose to take the mission**

- you will now need to be registered at PTC,
- you need to attend the Welcome to PTC and PTEC presentation
- find transportation to and from PTC, home and MITT
- enjoy the next four years of your exciting life!

- if **you choose to decline the mission**

- your name will be removed and the next person on the waiting list will be called
- the newly appointed student will have to give us a response within 24 hours
- if that person takes the seat, we halt. If they don't, we move to the next student

Typically, there are around 60+ students on the waiting list and only the first 20 students on the waiting list will be acknowledged.

SmartPark Innovation Hub

Located on the University of Manitoba

Campus - June 2023

Pembina Trails Collegiate

New Address

September 2023

A stylized, glowing digital head composed of white lines and dots, set against a dark background. The head is filled with binary code (0s and 1s) and network-like connections. The overall aesthetic is futuristic and technological.

**Imagine  
your future**
