

NEW BOARD MEMBER ORIENTATION

In the belief that effectiveness as a Trustee is based to a large extent on familiarity with all aspects of the School Division's operation, the Superintendent and the Division staff shall assist new board members to become fully informed about the affairs of the School Division, the Division's personnel and facilities, and the Board's functions, policies, procedures, and current areas of endeavor.

Insofar as possible, such orientation shall take place subsequent to the election of a new board member, and prior to the new board member officially taking office.

Accomplish Anything
