

RESEARCH/ADMINISTRATIVE REPORTS

The Board recognizes that effective decision making is based upon knowledge and understanding of a wide range of school operations. The Superintendent is directed to provide information concerning on-going programs, program needs and proposed programs through reports, both oral and written, in a manner appropriate to the Board's decision making needs.

In addition the Superintendent shall, on an annual basis, be responsible to provide to the Board a comprehensive report on the expectations and results of the Pembina Trails Action Plan, CA-R.

Board members who wish a detailed report of some facet of school operations not a part of the normal reporting process will make their requests through majority vote of the Board at a duly constituted meeting.
