

CARRY ON ITEMS ON SCHOOL BUSES

1. Under no circumstances shall a school bus driver allow any animal (except service dogs), weapon, explosive or flammable liquid to be taken on a school bus.
2. Articles made of metal may not be carried on any student's lap unless the metal is fully enclosed in a suitable protective covering which will prevent injury in the case of an accident. Plastic cases (e.g. music instrument case) are permitted.
3. Articles, apart from those prohibited under this Policy above, may be transported on a school bus provided that they fit within the lap space of the student or be fully contained within the unused seating space without protruding into the aisle or the space above the seat backs.
4. The school bus driver is authorized to decline to transport any article likely to endanger the safety of passengers and may require that articles transported in otherwise unused seating spaces be secured.
