

# GRADUATION PATHWAY PLANNING

Now is the time to start to plan your individualized, innovative pathway and we are here to help.

Start planning forward for your graduation eligibility by checking compulsory courses and filling in your option courses. A minimum of 30 credits is required for graduation. Please note at least one optional credit must be at the grade 11 level and at least two optional credits must be at the grade 12 level. Do not forget your pathway can be interchangeable, this is just to start your planning for your time after high school.
