

STUDENT PHOTOGRAPHS

Individual schools may arrange, in cooperation with either the school's parent organization, student council, designated student Committee, or a staff committee, to take individual student and/or class group pictures.

Individual and/or class group pictures may be taken at the school facility and during the regular school day hours. The pictures shall be made available for purchase by students and/or parents/guardians on a voluntary basis. The building school administrator or designate shall have final authority in authorizing the picture-taking program and will be responsible for overseeing the process.

Students may be required to have an individual picture taken for the cumulative file or identification purposes; however, no student shall be pressured or required to purchase photographs.

Accomplish Anything
