

CORPORATE SPONSORSHIPS

The Board recognizes that private corporate sponsorship of programs and activities provides valuable enhancement of programs and services offered by the Division. For that reason the schools of the Division and their parent councils may solicit sponsorships from local businesses. Principals, in consultation with their parent councils, may recommend such sponsorships to the Superintendent or designate, including the use of a business name and/or logo in school materials, acknowledging the sponsorship donor.

The Superintendent or designate will make such approval decisions.
