Student Led Learning

A continued focus for Beaverlodge staff and students this year has been finding ways to provide students with opportunities to be leaders of their learning! We have been treated to some fantastic assemblies hosted by individual classes and grade level groups and look forward to more in the coming months.

Students are excited to develop their own clubs at lunchtime. They are coming up with a variety of creative ideas. Our Smile Club submitted a proposal to Winnipeg Police Association and their Cool 2Be Kind initiative. They were awarded \$500 to support animal shelters across the city, buy toys and supplies and then make cards for the staff.

Finally, our students had the opportunity to show their families some of their recent learning, identify goals and set important next steps at Tri-Conferences. Families will have the opportunity to read a reflective learning comment written by each student for their own report cards at the end of March.

Things to Look Forward to...

MTYP will be here next week to put on a show for us called Tad and Birdy! We will watch the show all together and the following days some of our classes will participate in a puppeteering or mask making workshop!

On March 19th, we will dance into Spring Break with a sock hop to recognize World Down Syndrome Day on March 21st. Students will be invited to wear their most wacky and wild socks! More details to follow.

Kindergarten Information Evening

Our Kindergarten Information evening was well attended this year. We do not yet know if we are expecting to have one or two Kindergarten classes next year, but that information will be provided from the Division later in March.
