

**Update January 7, 2025**

Our IT teams have continued their work on restoration and recovery of all school services as a top priority. We have made incredible progress and are pleased to report that:

- most devices necessary to resume regular school operations have been restored;
- high school lab devices have also been restored and those classes can resume; and
- finally, the print server has been re-established, providing staff and teachers with more flexibility in delivering learning to students.

Thank you for your continued support as we make our way through this incident.
